SUMMARY

I'm Mohammed Adnan C, a 19-year-old MERN Stack Developer from Malappuram, Kerala. I have **nearly 1 year of professional experience** working at Prosevo Technologies, where I developed and contributed to real-world web applications.

I specialize in building full-stack applications using MongoDB, Express, React, and Node.js. Along with development, I have a strong eye for UI design using tools like Figma, Canva, and Photoshop.

I focus on creating clean, user-friendly, and performance-driven web experiences.

--	-------------------------------------

EDUCATION

+2 Humanities Journalism , <i>GHSS Peruvallur</i>	2023 – 2025 Malappuram,India
SSLC , <i>VPKMHSS Puthur pallikkal</i>	2023 Malappuram, India

COURSES

MERN Stack web development , <i>Prosevo technologies</i>	2025 – 2026 Malappuram, India
• Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN Stack). • Built responsive and user-friendly interfaces with React.js, integrating RESTful APIs for seamless data management. • Implemented backend services, database operations, authentication, and CRUD functionalities using Node.js, Express.js, and MongoDB.	

- Learned best-practice development techniques to design and structure high-performing business websites.
- Gained insights into analyzing customer behavior and using website metrics to drive growth.
- Mastered core principles for creating professional, user-centric online platforms.

INTERESTS

Generative AI & Digital Content Creation

Experimenting with AI tools to generate high-fidelity images, cinematic videos, and music. Enthusiastic about exploring how AI can be integrated into web development and brand design.

Football & Physical Activities

Regularly play football and engage in physical activities to maintain fitness, discipline, and a strong team spirit.

PC Gaming & Hardware

Enjoy playing open-world and sports titles. This hobby has led to a deep interest in PC building, hardware optimization, and troubleshooting technical systems.
